

National Conference On CRISPR/Cas: From Biology To Technology

November 25-27, 2021 (Virtual Mode)

Important Dates

- 📄 Abstract submission for Short Talks/e-Poster*: **October 25, 2021**
- ☰ Selection for Short Talks/e-Poster by **November 05, 2021**
- 👤 Registration*: *Early bird - October 31, 2021*
Late - November 15, 2021

About The Conference

iCRISPR-2021 is a three-day conference with a target audience of students, academic and industrial researchers, and policy makers. Scientists from eminent institutions including CSIR-IGIB, NCBS, IITs, IISERs, IISc, UoH, THSTI, Thermo Fisher Scientific, Reliance Industries Ltd., and others will discuss ongoing CRISPR/Cas-based cutting-edge research. The goals of the conference are two-fold: (1) to build awareness of the diverse CRISPR/Cas-related research activities that are currently underway in India, and (2) to create a platform for Indian CRISPR/Cas researchers to discuss their work, exchange ideas, and network.

Who Can Attend

Undergraduate Students | Postgraduate Students | PhD Scholars and Postdocs | Academic Researchers
Industrial Participants | Clinicians and Medical Practitioners | Policymakers

Thematic Sessions

CRISPR/Cas in Therapeutics & Diagnostics | CRISPR/Cas in Agriculture | Biology of CRISPR/Cas systems
CRISPR/Cas in Fundamental Research | Ethics of Genome Editing

Registration Fee

Category	Early registration	Late registration
Student/Postdoc	300	400
Faculty	500	600
Industry	750	1000
Abroad	40 USD	50 USD

Conveners: Dr Sutharsan Govindarajan, SRM University-AP | Dr Shruthi S Vembar, IBAB, Bengaluru
