

Department of Environmental Science & Engineering

INTERNSHIP OPPORTUNITY

About the University

SRM University-AP is a new-age university with a strong emphasis on research with an interdisciplinary approach. We foster a dynamic and vibrant research environment, supported by a diverse community of both faculty and students.

Internship project opportunity for BSc students on

- Pollutant remediation from wastewater
- Aquatic biogeochemistry
- Environmental microbiology
- Bioeconomy/Green economy
- Life cycle assessment
- Urban groundwater recharge
- Waste-to-Energy solutions
- Forests and climate change
- Waste valorization
- Coastal hydrogeology and submarine groundwater discharge
- Emerging contaminants, soil pollution and phytoremediation

Eligibility

Final Semester BSc students of
Environmental Science/ Geology/
Botany/ Zoology/ Chemistry/ Agriculture/
Microbiology/ Biotechnology etc.

Send your CV: env.office@srmmap.edu.in

Internship Benefits

Hands-on experience | Enhanced problem-solving skills
Training on technical/scientific writing | Exposure to high-end instruments | Project-based learning | Opportunity to be a part of ongoing research projects

Duration: 2-6 Months

Why Choose SRM University-AP?

- **Research Excellence** - Conduct studies on global environmental challenges
- **Cutting-Edge Facilities** - Access state-of-the-art laboratories and research equipment
- **Diverse Community** - Opportunity to work with vibrant faculty, PhD and MSc students
- **Free Access to Laboratory Facilities** - No internship fee

About the Department

The Department of Environmental Science and Engineering provides a diverse platform for studying human-environment interactions, offering opportunities in ecology, energy, water treatment, techno-economic analysis, climate change, and waste management under dynamic faculty guidance.

Programmes Offered

- MSc - Environmental Science
- PhD - Environmental Science and Engineering
