5.4	Furnish details of the following aspects of curriculum design: Innovation such as modular curricula inter / multidisciplinary approach	One of the objectives of SRM University-AP is to be globally connected, nationally relevant and regionally transformative. The vision and mission statements of the university emphasize knowledge creation, academic rigour, learning experience, interdisciplinarity, innovation, creativity, entrepreneurship, stimulating environment and serving society. Therefore, the curriculum has been thoughtfully crafted with explicit learning objectives and outcomes aligned with the learner's aspirations, the university's vision and mission, and the broader societal requirements. The curricula of all academic programmes are based on outcome-based education (OBE), which integrates knowledge, skills, training, and certification. The university follows a systematic curriculum design and development process as per the governing policies. Input from all stakeholders is taken in a structured manner. The curriculum is then discussed by the Board of Studies and approved by the Academic Council, which has representations of experts from industry and students. Outcome-Based Education (OBE) resides at the core of the curriculum design with a clear focus on learning outcomes. Accordingly, Programme Educational Objectives (PEO) and Programme Outcomes (PO) for each programme have been defined. Each course under the programme has Course Objectives and Course Outcomes (CO). A complete mapping of POs and COs with assessments is maintained and correlated to obtain learning attainment at the course and programme levels. Recently, the curricula of all the programmes have been revamped as per the National Credit Framework (2023) and are NEP-ready. The value-added courses, ability enhancement courses, skill enhancement courses, foundation courses, courses under minor programmes, internships, and projects constitute 50% of the total credits

		<p>required for a degree programme. The curriculum is flexible, adaptable, responsive to changing needs, and embeds disciplined knowledge, 21st-century skills, and their applications. Students can choose from a basket of courses under various career options, as well as the option for major specialization, cross-disciplinary minor specializations, and a variety of open electives from across disciplines. This is further accentuated by the Choice Based Credit System (CBCS) under the OBE framework adopted by the university, enabling students to be awarded credits for their chosen courses. The curriculum encompasses courses that are directly and indirectly relevant to local, national, and global needs. These include Community Engagement and Social Responsibility, Environmental Sciences, and many others offered by faculty as open electives. Besides, each student may undergo immersion programmes (corporate or international) through short-term and full-semester internships and study abroad programmes. All these programmes enhance their ability to seek solutions for regional, national and global challenges. Students also participate in ideathons/hackathons to work on national and global challenges, which are also integral to the curricula. To promote online learning, students are encouraged to register and enroll on SWAYAM MOOC courses offered by universities worldwide. A few of the SWAYAM MOOCs are run in a blended mode. The credits are awarded to students upon completion of SWAYAM MOOCs.</p>

5.11	How are the question papers set to ensure the achievement of the course objectives?	The university has laid down guidelines for the examination and the students are informed of the Course Outcomes, evaluation parameters at the beginning of each Semester by the concerned faculty. This is done through the detailed Course Plan document, which is provided to each student and is also available on the Learning Management system (LMS). Students are appraised about the course wise continuous assessment scheme by the respective faculty with a predefined weekly plan and weightage at the start of the semester. The end semester examination question paper is evenly distributed over the entire syllabi (as applicable for the examination) with the varying level of complexity as defined under Bloom's Taxonomy.																					
5.12	State the policy of the University for the constitution of board of question paper setters, board of examiners and invigilators.	SRM University-AP is a state private university and is empowered to follow the evaluation system as outlined in its statutes. The university follows a continuous evaluation system in which the faculty members are responsible for conducting a course and are fully accountable for setting the question papers and carrying out the evaluation. Invigilation duties are assigned by the Chief Superintendent from the Controller of Examinations' office, selected from a pool of internal faculty members.

11.4	<p>Are there other strategies to review academic Programmes besides the academic council? If yes, give details about what, when and how often are such reviews made?</p>	<p>Apart from academic council, academic programs are reviewed regularly with input from various stakeholders, including employers, alumni, students, and industry experts. Recently, a comprehensive program curriculum revamp was undertaken, where over 50 industry experts reviewed the curriculum and provided valuable suggestions. IQAC collects feedback from students and faculty and conducts both internal and external audits of the program. Employers provide feedback during interviews, which is incorporated into the curriculum through the Board of Studies (BOS). At the course level, bi-weekly course coordination committee meetings are held to review progress. The governing body and board of management also assess program outcomes by examining metrics such as graduate placements, higher-studies, and entrepreneurship. The academic and industry experts involved in PhD examinations and faculty selections frequently engage with departments during their campus visits, contributing to the improvement of academic programs.</p>

Datacenter with Smart in Rack Cooling solution

- Facility includes Smart Racks (16nos) along with In rack cooling (6 Nos of Liquid cooling Package Units) in the new Datacenter
- Adopted Efficient CommScope OFC cable and Cat 6A UTP cable management solutions of global standards and guidelines for all the Smart racks and Campus backbone connectivity from Datacenter
- Smart rack modular 200KVA UPS along with 43 no's (12V/150AH) battery bank for UPS
- DCIM - Datacenter Infrastructure Management monitoring solution to tracks temperature, humidity, airflow, and other environmental conditions of all the Smart racks in real-time

The Gateway Devices includes -

- Radware Alteon 5820 link load balancer for High Availability of Internet bandwidth across the campus and secured public access for in-house servers.
- Checkpoint Firewall Quantum 19200 for High Availability (HA) in security ensures continuous protection and uninterrupted access to critical resources, even during failures or maintenance activities.

Aruba Clear Pass C5000 policy management for AAA (Authorization, Authentication and Accounting) for Wi-Fi access in the campus - Comprehensive network access control (NAC) solution that provides robust capabilities for securing and managing network access
